This has been the case with Snow Legal, one of our clients. However, with our help, now they are able to serve different clients from previously unexplored niche markets.

Would you be open to learning more about how they did it, by scheduling a quick call this week?

Not sure you had a chance to read my above message but I wanted to lay out a little bit more. Since the biggest problem right now is the disruption of cash flow (even more than market volatility), helping clients understand their cash flow is the greatest thing an advisor can do for them. Not only will this help the client for now but it will also help the advisor with retention in the long-term.

I wanted to share a challenge for a lot of artists and companies in the cultural event industry, is the lack of initiative to make themselves accessible to the public, especially online.
